## STATISTICAL REPORT.

## PARENTS AND GUARDIANS :

The Board of Education herewith submit for your consideration their report for the school year ending March 1, 1895. In the treasurer's report will be found the number of weeks each school has kept during the year, together with the number and names of the various teachers employed.

The Selectmen reported the number of children between the ages of five and fifteen years to be 337; boys, 148; girls, 189.

The number of scholars of the town not less than five years of age who have attended school not less than two weeks during the year is, as learned from the school registers, 404.

The seats in the Depot street Primary School ought to be taken out and replaced with more suitable ones. We have called attention to this by an article inserted in the Warrant, and trust that the same may receive favorable action.

The librarian reports the whole number of books drawn from the library the past year as 13,119, an excess of 777 over last year. The largest number on any one Saturday, 228, on any one Wednesday, 114, both occurring in the month of March, 1894. The smallest numbers were drawn in the months of August and October. It will be seen that there is a constantly growing interest in the library among our citizens, and from the report of the State Library Commissioners we learn that there is no town in the State, of 3,000 inhabitants, where so many books are annually drawn as in Hinsdale.

The whole number of new books added to the library the past year is 265; 35 volumes have been duplicated and 50 rebound, in addition to the binding of the magazines. The winter installment of books was purchased of De Wolf, Fiske & Co., of Boston, and the order was promptly filled and at a very satisfactory rate. The binding of the books and magazines was done by A. K. Allstine of Boston in a more thorough manner and on better terms than in years past. The Committee would remind parents and guardians of the importance of more careful usage of books. In many instances library books have been left in the stores or public places or dropped in the streets, and not a few come back to the library room torn, soiled and defaced by rough usage. Books will wear out however carefully handled, but there is no excuse for the careless methods of using books that prevail in some families. Hereafter the library regulation in this particular will be more strictly enforced.

Near the close of the year a petition was handed the Committee signed by 30 of our French residents asking that a department of French literature be added to the library. The names of the signers and the large number of this nationality who have taken up their abode with us, entitles

this petition to a respectful consideration, and it doubtless will be thought expedient and just to accede to such request in the selection of new books the coming year. It is estimated that there are at present some 300 books on the library shelves so worn out that it is necessary that they be rebound or duplicated the coming year, and the Committee would recommend the closing of the library in June, as soon as the schools are closed, and that all the books be called in at that time and put in order for the autumn.

A new railing has recently been put around the book cases, and a suitable table with chairs will shortly be added, with special view to accomodate those who visit the library to consult books of reference.

The town needs and should have a Reading Room connected with the library. The Town Hall was built expressly for the use of the town and to satisfy its wants and needs, and the time has come when it would be a positive advantage to our young people to take one of the rooms for such purpose.

G. S. WILDER,  
W. S. LEONARD,  
LIBRARY COMMITTEE.

LIBRARIAN.
